

USER MANUAL

Reading carefully before using the machine

Thank you for choosing our products, you will have a pleasant experience.

1 Overview

Thank you very much for purchasing our diffuser. The product adopts the latest cold spray technology, no need to add water or heating, can be atomized into 1-3 nano particles, this atomization technology will not damage the molecular structure of essential oils, more conducive to human absorption. Automatic dumping Power off (45° power off) When the equipment is tipped over during operation, the power will be cut off immediately to prevent the essential oils from being absorbed into the body. When the device falls over during operation, it will immediately cut off the power supply, preventing the essential oil from leaking and causing damage to the device. Compared with traditional Compared with traditional aromatherapy machines, it is safer and less likely to cause bacterial growth due to frequent water changes.

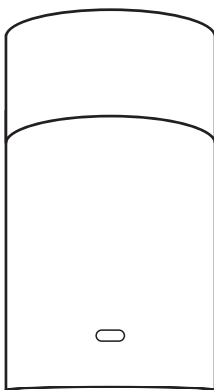

As it is compatible with the majority of essential oil bottles available, it gives you the freedom to choose from a wide range of fragrances that soothe you, relax you, or refresh you in a variety of situations. Using it with sanitizing essential oils can improve unpleasant odors and help purify the air around it.

2 Cautions

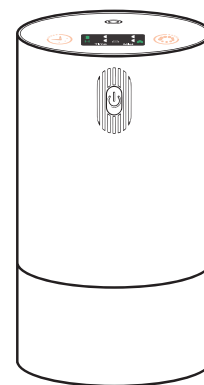

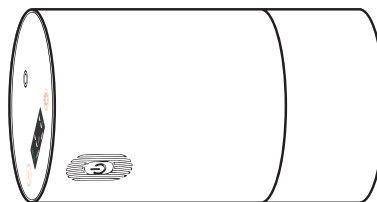

- **DO NOT** invert or tilt the device once the oil bottle is installed.
- **DO NOT** use it with camphor tree oil.
- **DO NOT** attempt to disassemble the device.
- For more quiet use, ensure the unit is **3 feet away**.

Product

5 Bottle Installation

- The device is compatible with 5/10/100ml bottles.

① 100ml essential oil bottle installation method:

Remove the large glass bottle, add the appropriate amount of essential oils to the large glass bottle, (add no more than 100ml) and install it back into the product to be used.

② 5-10ml essential oil bottle mounting method:

Remove the large glass bottle
Install the 5ml/10ml bottles of essential oils to the internal small thread, then install the large glass bottle.

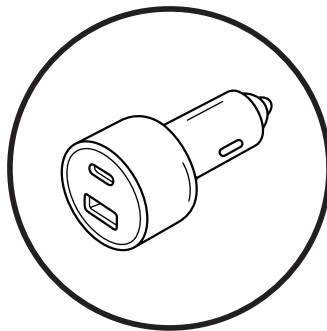

6 Charging

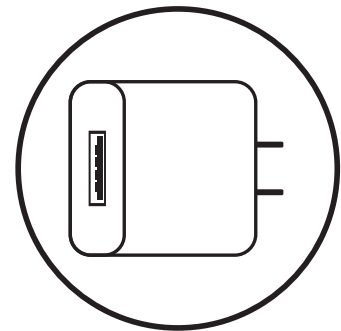

- 🔋 Normal charging time: 3-5 hours. If the charging current is below 1A, it will take longer to fully charge the device.
- You may charge from a 5V adapter, PC/MAC USB port, or USB interface within your vehicle. Please ensure that use safety-certified charging accessories.

PC/MAC USB port

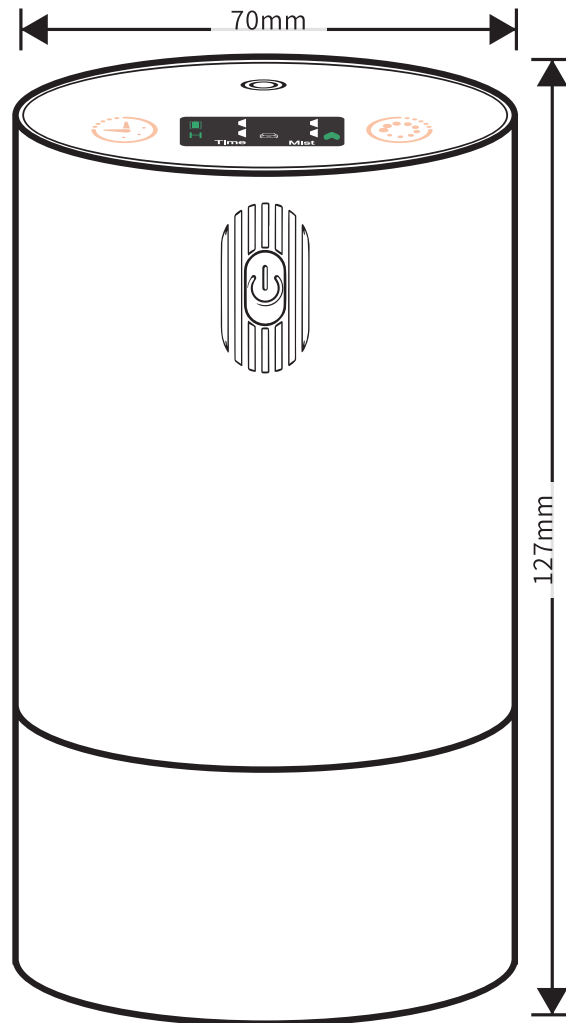

Car USB port

Adapter

- The battery indicator flashes green while charging and stays green when charging is complete.
- As charging cycles increase, battery life will decrease.

7 Specifications

Product model: PR-28

Size: 70*127mm

Input: DC-5V/1A

Power: 1W

Material: Glass + Aluminum alloy + PP

Oil capacity: 5-10ml/100ml

Battery capacity: 1500mAh

Net weight: 410g

8 FAQ

Q1: How to select the right essential oil?

Use 100% pure essential oils. Resin and thick oil are not recommended. Camphor tree and eaglewood oils are prohibited.

Q2: When I change to a new oil, there is mixed smell coming from my previous oil. How do I clean the nozzle and the bottle?

Regular cleaning: fill the empty bottle with 5ml of 99% ethyl/ethanol alcohol, then run the device until it runs out.

Deep cleaning: fill up the 20ml bottle with 99% ethyl/ethanol alcohol, then install the bottle into the device and soak for 1 day. Remove the alcohol and then refill with another 5ml of ethyl/ethanol alcohol. Run the device until it runs out.

Q3: I feel like it stops running sometimes, what has happened?

Please refer to section 4 for 'mist level explained'. The device is able to automatically optimize atomizing/pausing according to mist level.

Q4: How long does it take to fully charge the device?

Normally 3-5 hours.
