

# USER MANUAL

Reading carefully before using the machine

Thank you for choosing our products, you will have a pleasant experience.

# 1 Overview

---

Thank you for choosing our waterless essential oil aroma diffuser. With the latest cold diffusion technology, it converts essential oil into nano vapor to approximately 1-3 microns without using heat or water. The diffusing process does not damage the molecular structure, therefore maintaining its therapeutic properties for easier absorption into the body. **It is easier, more hygienic and safer.** We make it compact enough for you to fit it into your car tray so that you may take it with you wherever you go.

As it is compatible with the majority of essential oil bottles available, it gives you the freedom to choose from a wide range of fragrances that soothe you, relax you, or refresh you in a variety of situations. Using it with sanitizing essential oils can improve unpleasant odors and help purify the air around it.

## 2 Cautions

- **DO NOT** invert or tilt the device once the oil bottle is installed.
- **DO NOT** use it with camphor tree oil.
- **DO NOT** attempt to disassemble the device.
- For more quiet use, ensure the unit is **3 feet away**.
- Keep the device away from children and pets.
- The more concentrated the oil, the less diffusing ability.
- If you do not plan to use this device for an extended period of time, please store the device and the nozzle separately.
- Working Temperature: **10°C -45°C**

## What's in the Box

Diffuser

Charging Cable

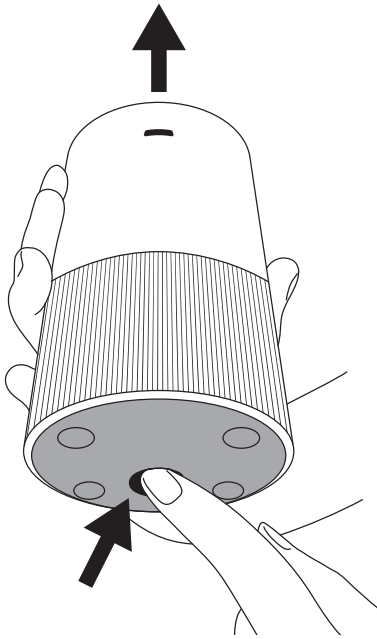

Standard Oil Bottle

Nozzle

## 5 Bottle Installation

- The device is compatible with 10ml bottle.

### Withdrawal method:

Press the bottom button firmly with your finger to eject the nozzle.

### Installation:

Twist the bottle onto the nozzle and press the nozzle down to complete the installation. To install correctly, please look for the "▲▼" sign before pushing the nozzle.

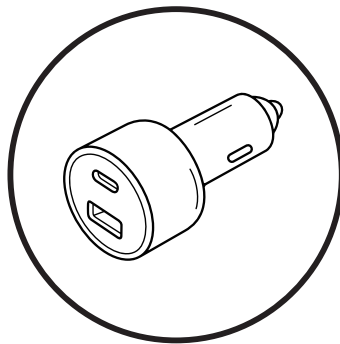

## **6** Charging

---

- 🔋 Normal charging time: 3-5 hours. If the charging current is below 1A, it will take longer to fully charge the device.
- You may charge from a 5V adapter, PC/MAC USB port, or USB interface within your vehicle. Please ensure that use safety-certified charging accessories.

**PC/MAC USB port**

**Car USB port**

**Adapter**

- During charging, the battery indicator flashes green, and remains green when charging is complete.
- As charging cycles increase, battery life will decrease.

## **7** Specifications

---

**Oil Capacity: 10ml**

**Input: DC-5V/1A**

**Rated Power: 5W**

**Size: Dia 68\*108mm**

**Battery Capacity: 2000mAh**

**Net Weight: 260g**

## **8** FAQ

---

### **Q1: How to select the right essential oil?**

Use 100% pure essential oils. Resin and thick oil are not recommended. Camphor tree and eaglewood oils are prohibited.

### **Q2: When I change to a new oil, there is mixed smell coming from my previous oil. How do I clean the nozzle and the bottle?**

Regular cleaning: fill the empty bottle with 5ml of 99% ethyl/ethanol alcohol, then run the device until it runs out.

Deep cleaning: fill up the 10ml bottle with 99% ethyl/ethanol alcohol, then install the bottle into the device and soak for 1 day. Remove the alcohol and then refill with another 5ml of ethyl/ethanol alcohol. Run the device until it runs out.

### **Q3: I feel like it stops running sometimes, what has happened?**

Please refer to section 3 for 'mist level explained'. The device is able to automatically optimize atomizing/pausing according to mist level.

### **Q4: How long does it take to fully charge the device?**

Normally 3-5 hours.
